CHINA AND JAPAN.
More Earthquakes—Honors to Marquis Tseng's Memory.
SAN FRANCISCO, May 24.—[By the Associated Press.] The Japan Mail says about one hundred earthquakes were felt on Miyoko Island, in the Izu group, from April 17th to 19th. Many houses were destroyed, and landslides occurred in various parts of the island.

Of the large number of persons arrested on suspicion for the murder of Rev. T. A. Large, the Canadian Methodist missionary, four are in custody. The Shanghai Mercury says: At a place called Zechu, near Ningpo, a miser named Chang, who was delirious from fever, murdered his wife and son, and daughter, mutilating the bodies afterward, and committing suicide.

Referring to the death of Marquis Tseng, an imperial decree of April 25th stated that the deceased always performed his duties so as to conduce to the welfare of China at home and abroad, and the Emperor lamented the death of an able and faithful officer. The decree commanded that posthumous honors be accorded to the deceased. The train which last month conveyed the Emperor of Japan from Tokyo to Nagoia made the distance, 228 miles, in nine and one-half hours, including stoppages, being the best time yet made on a Japanese railroad. The National Japanese Exhibition during the month of April was visited by half a million people. Receipts from the sale of tickets amounted to about fifty-six thousand dollars. It is now expected the exhibition will remain open until August.

The Royal Gazette of Seoul on April 15th contained notification that O. N. Denny's contract for two years with the Korean government having expired, his connection as vice-president of the home office had ceased. It is also stated that a royal decree was issued two weeks previously dismissing all the employees of the foreign office except the president, which would sever Denny's connection with that office. It is said Mr. Denny intends shortly to leave Korea, though in some quarters it is understood the King would like to retain Denny in his employ.

Steamer Wrecked—The Crow Saved.
SAN FRANCISCO, May 24.—The steamship Belgic arrived this morning from Hong Kong via Yokohama. The steamship Mogul had left Hyogo, Japan, to go to the assistance of the steamship Ulysses, Capt. Butler, from Yokohama, which went ashore April 21st on the island of Kosima. The natives of the island rendered all assistance possible, and the crew of the Ulysses were transferred to the Mogul without incident. The Ulysses will probably prove a total wreck, being badly damaged. She carried little cargo.

By Telegraph to The Times.

LATONIA (Ky.), May 24.—[By the Associated Press.] This was the opening day of the Latonia Jockey Club. The track was fast. In the great event of the day, the Latonia Derby, Riley was the favorite and heavily backed. The derby was worth \$5000, of which \$400 went to second and \$100 to third.

Bill Letcher led at the start, but was soon passed by Riley, who kept the lead until the three-quarter post was passed. Bill Letcher was then given free rein and began to forge ahead, and Riley's fate was sealed. In the stretch Murphy plied the whip on Riley, but without avail, and Bill Letcher passed under the wire amid great applause.

The following is a summary of the day:

Four-year-olds and upward, mile—Glockner won, Good by second, Fair-sade third. Time, 1:44.
Three-year-olds and upward, mile and seventy yards—Hopeful won, Gymnast second, Birthday third. Time, 1:49.

The Brotherhood Not Ready to Die Just Yet.

CHICAGO, May 24.—[By the Associated Press.] Secretary Brunell of the Players' League, in a local paper, replies at length to Spalding's remarks of yesterday. He ridiculed the league magnate's gloomy forebodings so far as the brotherhood is concerned, and says all statements about the poor financial standing of that organization are rot; that it will live as long, if not longer, than others, and that it will not be necessary to resort to Sunday games or beer-selling.

At the mile and a half which looked like a fatal accident happened to Yale. Allen, captain and stroke, broke his oar, and with the recovery he shot out of his boat and into the water. He was picked up by the referee's boat, but this left the Yale crew with but seven men and without stroke and captain. The Atlantas now spurred, but the Yale boys showed their skill by answering, and the Atlantas could not draw up at all. This is the first defeat ever suffered by the Atlantas crew.

HAIL TO THE CHIEF

Who in Triumph Advances on the Other Fellows.

[San Bernardino Courier.]
Huntington is using his hatchet with ruthless vigor. One by one, he is decapitating the beats and bums, the strikers and the scoundrels, the political pimps and the partisan parasites, who, in sleek idleness, have been grasping the reins of the easily earned wages of their prostitution. Talk about reformers! Collis P. Huntington in thus extirpating the vile tribe of degraded mercenaries, is doing the greatest moral work of the age. He is the Gladstone of monopolistic moralists, the Cleveland of railroad administration.

His merciless slaughter of the corruptionists will not only purify the moral atmosphere which hitherto hovered so densely and dirtily over the Southern Pacific, but it will have a mighty influence for the purification of the whole moral atmosphere of California. The effect of Huntington's wholesome reform will be most beneficially felt throughout every ramification of California social life. In public life, the blow will fall with telling force. Official corruption will feel the stroke deeply. It is a notice, in fact, that henceforth there is not so much encouragement for every man in responsible position to have his price as the great historical debaucher, Sir Robert Walpole, would say. If Huntington is in earnest, most corrupt officials will henceforth not be able to stand the heat. The example of the Southern Pacific under an honest management, especially by contrast with the hypocritical regime of the monumental moralists, Stanford, must be incalculable for the promotion of a wide morality in political, official and even business life. Huntington can make honesty the fashion again. With the Southern Pacific no longer a buyer of votes, political corruption as a profession, will no longer be a very lucrative calling. The moral support of every man in California, who is opposed to bribery and booting in politics and in official administration, ought to be steadily given to Huntington in his new departure. But, men and brethren, how the truly good and Sunday-schoolistic Stanford must feel about it!

OUR NEIGHBORS.

From the Ojai.

NORDHOFF, May 24.—[Correspondence of THE TIMES.] Capt. C. W. Gillette and wife left last Wednesday for a visit to their old home near Boston. Capt. Gillette was the third commander of the first Morning Star, a vessel built by the Sunday-school children of America to carry missionaries and supplies to the islands of the South Pacific Ocean. He had charge of the vessel six years, from 1890 to 1896, and met with many interesting and stirring adventures, carrying the first white missionaries to the Micronesian and other islands. Prof. T. S. Woolsey and family have gone East to spend the summer. Prof. Woolsey is a son of the late ex-President Woolsey of Yale College.

Rev. Dr. Heston, of the First Congregational Church of Los Angeles was in the valley last week, and visited Thomas Barrows.

Miss Franc Hawks, principal of our public school, returned to her home in Los Angeles after a week's visit in Hueneue. The school closes Tuesday. Miss Peiham, her assistant, will spend her vacation in Ventura.

It could, however, be acted with better effect at night. Stage-scene seemed contagious, for one after another, the participants failed, to the evident amusement of the audience. The next entertainment comes off on the last of the month, and, judging from the time and labor expended on the programme, it will certainly be a success. The talented ones are anxious to redeem their reputations as actors.

A small party from here attended the "Old Folks' Concert" given by the Ladies Aid Society at The Palms and enjoyed the singing very much.

The prayer meeting on Wednesday night, conducted by Rev. Mr. Blanchard, was exceedingly interesting. Nearly every one present stood up and testified. These prayer meetings are doing a good work, and the ministers have the thanks of many an old soldier for their energy and kindness. L. C.

Vedolia Cardinals.
LOS ANGELES, May 24.—[To the Editor of THE TIMES.] In view of the numerous applications every day, personally and by letter, to the Board of Horticultural Commissioners for colonies of the vedolia cardinals, and to quiet the apprehensions of orchardists on whose premises the vedolia colonies have been placed, I am, in accordance with the request of the public, that the vedolia in existence in numerous orchards in Los Angeles, San Gabriel and Duarte, though in limited numbers, owing to the scarcity of its natural food—white scale. It is believed, however, that by the 1st of July they will have so multiplied that all needing colonies can be supplied, and in the mean time there is no occasion for alarm.

LETTERS TO THE TIMES.

The Adventists and the Saloons.
LOS ANGELES, May 23.—[To the Editor of THE TIMES.] From what has been stated from the desk and through the press of our city within the past few weeks there seems to have been received the impression that the Seventh Day Adventists, as a denomination, are in league with and sustaining the saloon element in their soul-destroying work of venging their poison to the public, and so obliterating the happy home lights of our firesides, and breaking down the bulwarks of our national pride.

As pastor of that church in this city I wish to express my surprise and regret that such a false light should have been given to this denomination. During the past forty years of our denominational existence we have ever stood firmly as a strictly temperance people. Our literature upon this subject is to be found in many of the leading reading-rooms and public libraries, not only of this nation, but throughout the English-speaking world. The International Health and Temperance Association, as reported in the Seventh Day Adventists' Year Book of 1890, page 96, is now entering upon its twelfth year as an organization, and shows a real active force of 20,000 members, the most of whom use neither tea nor tobacco, and none use liquor or opium in any form whatever. As a people we are strictly for prohibition, not only one day in the week, but seven.

We understand from the ruling of the Supreme Court in the Pasadena case that article 11, section 11, of our Constitution makes it possible for the county or town to close the saloons on all days. Let us do it. These saloons are not only a moral curse, but a civil crime against the State. As a denomination we have always worked, and always expect to work, for any and legitimate moves that are made in favor of the removal of the saloons from our midst, so long as those efforts are confined strictly to that work.

What Christian object intelligent man can have in ringing our denomination in line with this nefarious traffic, and presenting us as being in line with the Socialistic and hoodlum element in our country, we leave any candid mind to answer.

When we wish it understood that we are unreservedly opposed to anything and everything that looks to a final union of the civil authorities in our land with the church or churches, being well enough satisfied with the reading of the history of the introduction of just such a move, for the same purpose, in the third and fourth centuries, without wishing a repetition of the same thing in our day, yet we do oppose these false presentations of our principles upon the liquor question. Trusting this may disabuse some minds of the erroneous views that have been presented, we are yours for law, order and the promulgation of Christian principles.

THE PEOPLE'S STORE.

OUR 25c SALE WILL BE CONTINUED TOMORROW.

Every One is Always in Search of a Bargain—It is Easily Recognized When Found—Call on Monday.

PEOPLE'S STORE.

SUNDAY, MAY 25, 1890.

To those who could not attend our great 25c sale yesterday, to those who wish they had attended our great 25c sale yesterday we give the glad tidings that it will be continued tomorrow. We will give those who could not and did not get an opportunity then to partake of the bargains to do so now, and those who did a chance to get some more. Money saved in this way is appreciated more than that earned in the usual manner; a bargain is always a kind of treasure eagerly looked for, seldom found (except at the People's Store), and readily recognized when seen. We never begin a sale unless we have enough of the things, no matter how low they are offered, to make what we call a "sale"—enough to overstock the average store, and when, as in the case of our 25c sale yesterday, they are not all closed out, we continue the sale with the addition of other things for the benefit of those who could not attend. Our list for tomorrow comprises many of the items on sale yesterday, and a large quantity of additions special for today only. Watch our window tomorrow. We will astonish you again.

CATARRH.

Throat Diseases, Asthma, Bronchitis, and Consumption, together with Diseases of the Eye, Ear and Nose, are all cured by Dr. HILTON WILLIAMS, M.D., M.C.P.R.O. By his Hot Air Medicated Inhalations and his Compound Ointment Treatment, a safe, sure, and permanent cure is guaranteed.

CATARRH.

Catarrh is often regarded by the patient as a cold in the head, and he often expresses his astonishment at his remarkable tendency to contract fresh cold. Indeed, he declares that he is scarcely free from one cold before he takes another, and he is always exceedingly careful; it is also a matter of surprise to him that the cold always seems to settle in the head and throat.

At times many of the symptoms of catarrh seem to abate, and the patient is led to hope that the disease is about to wear off; but another class of symptoms soon appear, and he is led to a horror that, instead of recovery from the disease, it is some fatal change in its character and has extended to the throat.

A sense of weariness is sometimes felt in reading, speaking or singing; hoarseness at times occurs, a sensation of dryness is felt in the throat, the breath issues on a little exertion, a short, hacking cough, a peculiar sound in clearing the throat, a feeling as though there was not room enough in the chest to breathe; these and other symptoms occur after the disease has made considerable progress. Then it is a time when consumption is about to begin its dreadful work. Up to this time the progress of the disease may have been slow and the patient may, in expressing his confident hope that it will "wear off," declare that he has had the catarrh years and had not seemed to become much worse, and trusts that he will "by and by" recover. But this delusion is the grand error which has puzzled our countrymen with consumptive forms, as all forms of catarrh end finally in consumption.

Every case of catarrh is curable when properly treated. Eastern visitors and invalids will avail themselves of the opportunity of being cured before their return home. Those who desire to consult me in regard to their cases had better call at the office for an examination, but if impossible to visit the office personally call on me at my residence and circular, both of which will be sent free of charge.
